

VU LE BINH

Web Developer

Dob: 12/07/2000
Gender: Male
Phone: 0813626639
Email: vubinh120720@gmail.com
Website: https://vubinh.id.vn/
Address: Hanoi, Vietnam

OBJECTIVE

Short-term: Continue strengthening my front-end development skills while expanding my back-end knowledge to contribute to building complete web applications. I am also willing to take on related responsibilities such as website administration, SEO optimization, data analysis, and technical support to meet practical business needs.
Long-term: Become a well-rounded Web Developer with solid front-end and back-end knowledge, a strong systems mindset, and the ability to solve a wide range of technical problems. I aim to contribute to building, maintaining, and optimizing high-quality, high-performance web products that deliver practical value to users andbusinesses.

EDUCATION

2018 - 2022 **Hanoi University of Natural Resources and Environment**
Information Technology Major
B.Sc. in Information Technology

WORK EXPERIENCE

6/12/2021 - 24/3/2022 **Hung Ha Payment Joint Stock Company**

SKILLS

Present Skills

1. 5 years of experience developing web interfaces using HTML5, CSS3, and JavaScript.
2. 2 years of experience with Drupal CMS and 3 years with WordPress CMS, including interface customization, theme development, and feature integration based on project requirements.
3. Experience with MySQL database design, querying, and management.
4. 3 months of hands-on application development using the CodeIgniter framework.
5. Practical experience with ReactJS and VueJS through user-interface development projects.
6. Proficient in GitHub and GitLab for source-code management and software development workflows.
7. Able to use AI tools such as ChatGPT, GitHub Copilot, Claude, and Gemini to research, develop features, optimize code, troubleshoot issues, automate repetitive tasks, and learn new technologies.
8. Skilled in setting up, optimizing, and managing business listings on Google Maps / Google Business Profile, as well as launching and optimizing Google Ads campaigns.

INTERESTS

In addition to website development, I enjoy video editing and exploring technology products, games, and digital experiences. These interests help me develop visual thinking, creativity, and a broader perspective when building website interfaces, features, and user experiences.

ADDITIONAL INFORMATION

I am a Web Developer passionate about building websites with intuitive interfaces, reliable functionality, and strong user experiences. With experience in HTML, CSS, JavaScript, PHP, WordPress, and Drupal, I focus on code quality, cross-device compatibility, and website performance. I am responsible, proactive, and a quick learner, always willing to explore new technologies to solve problems and improve product quality.
